

Keeghan McGarry

BUSINESS ANALYST & TECHNICAL MANAGER

Profile

Experienced and passionate Business Analyst with over eight years of experience evaluating and improving business systems. Adept in analytical thinking, strategic planning, leadership, and building strong relationships with business partners.

Dedicated team leader with the ability to effectively manage and achieve project goals, leveraging my software development and communication skills.

Employment History

Business Analyst, The Climbing Hangar, Liverpool, United Kingdom

SEPTEMBER 2019 – PRESENT

As a member of the Senior Management Team, I define the KPIs and metrics that we measure business success against. I have helped the business grow from four sites to nine, while still maintaining a "customer first" operating model. This included a migration to cloud technologies, automation of reporting, and promoting a data driven culture within the business.

Technical Director, MagicAce Consulting, Wellington New Zealand

JULY 2017 – SEPTEMBER 2019

In charge of customer acquisition and project management, I ensured our customer's projects were completed on time and within budget. As a digital consulting company we worked with businesses to bring them into the digital age, from simple webdesign through to complete overhauls of POS and Finance systems.

Technical Manager, Arthur D. Riley & Co., Wellington New Zealand

MARCH 2014 – JULY 2017

My roles at Arthur D. Riley were many and varied over the four years I worked there. I began as a Database Administrator, designing and maintaining a range of databases for both B2B and SaaS systems. As the business expanded, I took over management of all IT Systems and lead the cloud migration. With the IT systems now solidly in place, I switched into a Business Analyst role, working directly with the Sales Manager and Finance Director to ensure efficiency and profitability within the development teams.

Developer, HelloDigital, Wellington New Zealand

APRIL 2012 – FEBRUARY 2014

At HelloDigital I worked as a Full Stack Developer, creating websites and CMS systems for customers.

Education

Project Management Professional Cert., LearnSmart

2017

NCEA Level 1 (Merit Endorsement), Onslow College

2010 – 2013

Hobbies

I am an avid Chess

Player, currently competing for Liverpool Chess Club. I am also passionate about web development, and most recently have combined these two hobbies in the creation of a web app for chess training.

I am also a qualified personal trainer, with a specific focus on Strength Sports - specifically Power Lifting.
